

Cosentino, the world's largest manufacturer of quartz, manufactures an eco-friendly countertop called ECO by Cosentino. ECO contains 75% post-consumer and post-industrial recycled raw materials, as well as 25% natural elements..

ECO is made from salvaged mirrors, window and bottle glass, porcelain from home products, industrial furnace residuals from factories, stone scrap, and a proprietary bond containing 22% corn oil resin. It is available in ten colors and the is a durable product with high stain, scratch, and scorch performance. ECO by Cosentino is GREENGUARD certified for low chemical emissions and can help contribute towards LEED certification. It has received Cradle to Cradle Silver certification from McDonough Braungart Design Chemistry.
