

CONGRATULATIONS!

PRESTON WOODWORKING

2009 WINNER of the

CONSTRUCTION SAFETY EXCELLENCE AWARD

Specialty Contractor Classification

100,000 to 300,000 Work Hours Performed

Construction Safety Excellence Award candidates had to meet stringent pre-qualification requirements to participate. Candidates were then independently judged on their corporate commitment to safety; overall safety program elements; level of employee involvement and the company's effectiveness in promoting safety to include uniqueness and creativity.

Preston Woodworking will now compete nationally for the 2010 Associated General Contractors of America Construction Safety Excellence Award to be presented at the 91st convention of the AGC of America in March.
